

# EG1500

## LOW COST BALANCE

- 0.01 g resolution
- easy to use
- portable
- battery powered
- low cost
- durable construction
- calibration weights included
- gram, grain, carat & ounce units

# EG1500

## LOW COST BALANCE

### Features and Benefits

The EG1500 is a compact, low cost, battery powered electronic balance offering a totally portable weighing capability combined with high resolution for precise accuracy.

Ideal for use in a variety of applications where portability and accuracy are required the EG1500 offers a combination of features often found only in more expensive equipment.

An accurate, easy to use weighing scale supplied complete with two test weights to ensure top performance at all times.

The EG1500 is housed in a tough grey ABS case with a clear LCD display and a large stainless steel weigh platter with a removeable grey measuring cup.

As standard the EG1500 weighs in grams, grains, carats and ounces.

To reduce the risk of damage while the scale is being moved the weigh platter can be rotated to protect the weighing mechanism.

The auto switch off feature is provided to maximise battery life as the scale switches itself off during periods of inactivity.

### Specifications

Capacity  
100 g

Resolution  
0.01 g

Alternative units  
1500 gn x 0.1 gn  
485 carat x 0.05 carat  
3.4 oz x 0.0001oz

CE approved

Grey ABS case with stainless steel top platter.

Removeable measuring cup.

Four push buttons for zero, units, on/off and calibration.

Two calibration weights - 30 g and 50 g, supplied

Power 9 volt PP3 battery, supplied

Auto power off

Dimensions-  
Weighing platter 85 mm diameter

142 mm (l) x 104 mm (w) x 25 mm (h)
